Drawings

1. The drawings filed on August 2, 2003 are acceptable subject to correction of the informalities indicated on the attached "Notice of Draftsperson's Patent Drawing Review," PTO-948. New corrected Replacement Sheets of the drawings, in compliance with 37 CFR 1.121(d), are required in this application. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to this Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance. Failure to timely submit the corrected Replacement Sheets of the drawings will result in the abandonment of the application.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 1-21 is the inclusion in claims 1 and 14 of the applicator cap member having a blade portion including a scraper edge and a comb edge with the blade portion being adapted to manipulate a solid material on a surface. None of the art cited disclose this concept. The primary reason for the allowance of claim 22 is the inclusion in the claim of the lock ring assembly for reversibly securing the pusher member at a selected position within the storage container member with the lock ring assembly including a lock ring member fastened by a flap member to the pusher member, and the lock ring being oval, with a major axis greater than the diameter of the cylindrical storage member. None of the art cited disclose these concepts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
